

Cape Cod National Seashore's Atlantic Research Center presents:

The 2011 Science in the Seashore Research Conference

Date: August 17th, 2011

Time: 1:00 PM – 4:30 PM

Location: ARC Classroom, Highlands Center Campus, North Truro, MA

Cost: Free to All, Public Welcome!

In an exciting new effort to communicate natural resource science taking place at Cape Cod National Seashore, the Atlantic Research Center (ARC) will be hosting our first ever “**Science in the Seashore Research Conference**.” The conference will take place at the ARC Classroom building located at the Highlands Center in North Truro, Massachusetts on Wednesday, August 17th. The afternoon event will feature 8-10 oral presentations by individuals conducting scientific research at Cape Cod National Seashore. Among the speakers will be scientists from government, non-profit, and academia. Topics will span the disciplines engaged in management-driven natural resource science including plant ecology, wildlife ecology, geology, and the marine sciences.

The parallel goals of the Atlantic Research Center are to expand upon the magnitude of research taking place within Cape Cod National Seashore and to communicate this research to students, educators, administrators, other scientists, and members of the public. The conference will provide a brisk, half-day of talks with the intent to generate an environment engaging for researchers and members of the public alike!

Directions to the ARC Classroom at the Highlands Center: Take Route 6 to the Highland Light exit in North Truro. Go east on Highland Road. At the end, take a right onto South Highland Road. After approximately 0.6 miles, take a left onto Old Dewline Rd. The Highlands Center is at the end of the road, the classroom is the third building on the right, #43 Old Dewline Road, Truro.
